CALICUT UNIVERSITY – FOUR-YEAR UNDER GRADUATE PROGRAMME (CU-FYUGP)

Physical Education

PROGRAMME OUTCOMES (PO):

At the end of the graduate program at Calicut University, a student would:

PO 1	Demonstrate a profound understanding of knowledge trends and their impact on the chosen discipline of study.
PO 2	Demonstrate professional skills to navigate diverse career paths with confidence and adaptability.
PO 3	Demonstrate mastery of varied digital and technological tools to understand and interact with the digital world, thus effectively processing complex information.
PO 4	Become a successful professional who drives positive change through effective communication, collaborative acumen, transformative leadership, and a dedication to inclusivity.
PO 5	Emerge as an innovative problem-solver and impactful mediator, applying scientific understanding and critical thinking to address challenges and advance sustainable solutions.
PO 6	Become a responsible leader, characterized by an unwavering commitment to human values, ethical conduct, and a fervent dedication to the well-being of society and the environment
PO 7	Emerge as an innovative researcher and entrepreneurial leader, leveraging collaborative partnerships with industry, academia, and communities, thus contributing to local, regional, and global development

Programme	MDC Physical Education				
Course Code	PEN1FM105(1)				
Course Title	INTRODUCTION TO YOGA AND STRESS MANAGEMENT				
Type of Course	MDC I (1)				
Semester	1				
Academic Level	100-199				
Course Details	Credit	Lecture per week	Tutorial per week	Practical per week	Total Hours
	3	2	-	1	45
Pre-requisites	Introduction to yoga, stress, and various stress management techniques				
Course Summary	Modern life became better, easier and more comfortable because of the inventions of machines and its vast uses in our daily life. But it made our life less kinetic and became less physically active. The people face many				

	fitness problems mainly physical and mental fitness issues. Most of the people including youngsters are facing mental stresses which make their life more difficult. Yoga is the best contribution of our Great Nation to the world. This gives awareness and knowledge about basics of yoga and asana to have healthy and fit citizens.
--	--

Course Outcomes:

After the completion of the course students will be able to:

CO	CO Statement	Cognitive Level*	Knowledge Category#	Evaluation tools used
CO1	Introducing yoga and its origin. Understanding types of yoga, limbs of yoga, kriyas. application mudras.	U & Ap	F & C	Quiz/Presentations/Internal exam
CO2	Knowledge about the classification of asanas, suryanamaskar, its benefits and apply it in daily life.	U and Ap	C & P	Multi media Presentations / Discussions/ Seminar/ Internal exam
CO3	Analyse and application of pranayama, its classification and benefits of it in day today life.	An and Ap	C & P	Presentations/ Discussions/ Internal exam Debates/Seminars
CO4	Understand stress, analyse and evaluate the physiological effect of yoga on stress through various yogic techniques	U, E & Ap	C, P & M	Presentations/ Assignments/Debates/ Internal exam
CO5	Develop skills and awareness to understand yoga, various types of asana, practicing various yogic techniques to release stress.	An, E & Ap	C, P & M	Debates/Multi-media Presentations/ Internal exam

Cognitive Level* - Remember (R), Understand (U), Apply (Ap), Analyse (An), Evaluate (E), Create (C)

Knowledge Category# - Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)

Module	Unit	CONTENT	Hours	Marks
			45	50

I	INTRODUCTION TO YOGA AND ITS CLASSIFICATION		6	10
	1	Introduction to Yoga- Meaning- Definition and History.	2	
	2	Types of Yoga –Bhakthi Yoga- Jnana Yoga- Karma Yoga and Raja Yoga.	1	
	3	Ashtanga Yoga (8 Limbs of Yoga).	1	
	4	Introduction to Mudras and Various Cleansing Techniques.	2	
II	INTRODUCTION TO ASANAS - DEFINITION AND ITS CLASSIFICATION. SURYANAMASKAR AND ITS BENEFITS.		14	18
	5	Definition and Benefits of Asanas. Loosening Exercise	2	
	6	Classification of Asanas- According to Purpose- Relaxative, Meditative and Cultural.	2	
	7	Classification of Asanas - According to Performance- standing, sitting, prone and supine. Standing Asanas - Ardhakadichakrasana, Ardhachakrasana, Padahasthasa, Trikonasana, Parivrtta Trikonasana .	4	
	8	Sitting asanas – Vajrasana, Sasankasana Pascimottanasa, Vakrasana, Ardhamatsyendrasana.	1	
	9	Prone - Bhujangasana , Salabhasana. Supine – Uttanpadasana Pavanamuktasana.	1	
	10	Classification of Asanas - Exercises.According to body Movements - forward bending, backward bending, twisting and balancing.	2	
	11	Introduction to Suryanamaskar (The Sun Salutation) – Techniques of Suryanamarkar with proper breathing paterns and its benefits. Practice of Suryanamaskar	2	
III	INTRODUCTION TO PRANAYAMA, DEFINITION, BENEFITS AND ITS CLASSIFICATION.		6	
	12	Definition and Benefits of Pranayama.	2	
	13	Breathing Exercises – Diaphragmatic Breathing, Puraka, Rechaka and Kumbaka and its types	2	
	14	Classification of Pranayama and its Techniques- Chandra Bhedana, Surya Bhedana and Nadisudhi.	2	
IV	YOGIC STRESS MANAGEMENT		10	12
	15	Meaning and definition of stress Types of Stress - Eustress, Acute stress, Episodic Acute Stress, Chronic stress and Distress	3	
	16	Stressors- Physical, Psychological, Psychosocial and Psycho spiritual.	2	
	17	Physiological Effect of Yoga on stress.	1	

	17	Various yogic stress management techniques- IRT, QRT, DRT , NSDR (Non Sleep Deep Rest Protocol)	2	
	19	Cyclic Meditation and Yoga Nidra	2	
V		Open Ended Module: This unit is customizable by the instructor. Topics can be chosen based on the interests of the class.	9 hours	5 marks out of 20 internal marks
	1	Practice of various asanas: Standing Asanas - Ardhakadichakrasana, Ardchakrasana, Padahasthasa, Trikonasana, Parivrta Trikonasana . Sitting asanas – Vajrasana, Sasankasana Pascimottanasa, Vakrasana, Ardhamatsyendrasana. Prone - Bhujangasana , Salabhasana. Supine – Uttanpadasana Pavanamuktasana.		
	2	Practice of mudras and pranayamas: Diaphragmatic Breathing, Puraka, Rechaka and Kumbaka and its types. Chandra Bhedana, Surya Bhedana and Nadisudhi.		
	3	Practicing suryanamaskar: Suryanamaskar with proper breathing paterns and its benefits.		
		Activities and assessment of Open ended For the open-ended module, here are suggested activities and evaluation methods aligned with the potential topics:

I Semester CUFYUGP Degree Examinations
Course Code:
Introduction to Yoga and Stress Management
(Credits: 3)

Maximum Time: 1.5 hours

Maximum Marks: 50

Section A

[Answer Any 8. Each question carries 2 marks]

(Ceiling: 16 marks)

1. Four vedas
2. Asana in Prone and supine posture.
3. Name eight limbs of yoga
4. Benefits of asanas
5. Pranayama
6. Chandrabhedasana
7. Padahasthasana
8. Stress
9. QRT
10. Loosening exercise

Section B

[Answer Any 4. Each question carries 6 marks]

(Ceiling: 24 marks)

11. Explain Ashtangayoga
12. Various classification of asana and its benefits.
13. Classification of pranayama and its benefits
14. Explain Cyclic Meditation
15. Describe types of stress
16. Explain any four asana and its benefits

Section C

[Answer any one. Each question carries 10 marks]

(1x10=10 marks)

17. Explain stress and various yogic stress management techniques.
18. Explain Suryanamaskar and its benefits.

Course Summary	This course aims to empower students with knowledge and skills needed to promote healthy living and prevent lifestyle diseases through informed choices in nutrition and physical activity.
----------------	---

Course Outcomes (CO):

CO	CO Statement	Cognitive Level*	Knowledge Category#	Evaluation Tools used
CO1	To define lifestyle diseases and distinguish them from other health conditions.	U & An	F & P	Exams / Quiz
CO2	Gain an understanding of the key risk factors associated with lifestyle diseases such as poor nutrition, physical inactivity etc.	U & An	F & P	Assignments / Seminars / Exams / Quiz
CO3	To analyse how lifestyle choices like diet, physical activity and stress management affect the overall health and susceptibility to diseases.	An	P	Presentation / Exams / Quiz / Viva Voce /Group discussion
CO4	To categorize different types of exercises and it's practicality.	An	C	Assignments / Seminars / Exams / Quiz
CO5	To acquire knowledge on balanced diet and nutrition such as carbohydrates, proteins, fats, vitamins and minerals.	An & Ap	C & P	Seminars/ Exams / Quiz / Group discussion
* - Remember (R), Understand (U), Apply (Ap), Analyse (An), Evaluate (E), Create (C) # - Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)				

Detailed Syllabus:

Module	Unit	Content	Hrs
I	Introduction to Lifestyle diseases		5
	1	Meaning, Characteristics and understanding lifestyle diseases and their prevalence.	2
	2	Consequences of unhealthy lifestyle.	1
	3	Importance of physical activity and healthy living	2
II	Types of Lifestyle diseases		11
	4	Diabetes, Obesity, Hypertension, Coronary Heart disease, Osteoporosis, Chronic back ache, PCOS – Causes, symptoms, risk factors and management	8
	5	Psycho somatic disorders - Stress, Anxiety, Depression - Risk factors and management	3
III	Exercises and Lifestyle diseases		10
	6	Vital signs - Blood pressure, pulse rate, body temperature, respiratory rate	2

	7	Assessment - BMI, WHR	1
	8	General principles of Exercises - types of exercises	3
	9	Exercises - Own body exercises - Mobility Exercise -band and loop exercise - dumbbell and kettle bellexercises - develop physical fitness components – strength, endurance, flexibility, balance and coordination	4
IV	Nutrition and Lifestyle diseases		10
	10	Nutrients – Micro nutrients and Macro nutrients.	2
	11	Importance of Nutrition and diet- RDA for general population and special population	3
	12	Understanding BMR, calories and energy balance.	1
	13	Nutritional deficiency diseases.	2
	14	Rest, Sleep, Screen time, Substance abuse, physical inactivity.	2
V	Open Ended Module: Exercise interventions for Active living, health records		9
	15	Practicing Aerobics, Zumba, Yoga, gym exercises etc	
	16	Maintaining personal health records – BMI, WHR, RHR, THR etc

II Semester CUFYUGP Degree Examination

PHYSICAL FITNESS AND ACTIVE LIVING

Course Code:

Credits:3

Maximum Time: 1.5 Hours

Maximum Marks: 50

Section A

Answer Any Eight Questions. Each question carries marks.

1. What is meant by Physical Activity?
2. Cosmetic Fitness
3. What do you mean by Principle of Specificity?
4. FITT
5. Exercise and Muscular System
6. Athletes Heart
7. Define Active Living
8. What is meant by Aging?
9. Warm Up
10. Agility

(8 x 2 = 16 Marks)

Section B

Answer Any Four Questions. Each question carries 6 marks.

11. Explain the components of Health Related Physical Fitness.
12. Give a detailed note on the effect of exercise on Respiratory System.
13. Explain the Risk factors associated with Physical inactivity.
14. Explain the importance of Warming up and Cooling down.
15. What are the factors to be remembered while designing PRPF Training Programs

(4 x 6 = 24 Marks)

Section C

Answer Any Two Questions. Each question carries 10 marks.

16. Explain various types of Physical Fitness and its Components
17. Elaborate on the Principles of fitness training.

(1 x 10 = 10 Marks)

**CALICUT UNIVERSITY – FOUR-YEAR UNDER
GRADUATE PROGRAMME (CU-FYUGP)**

PHYSICAL EDUCATION

PROGRAMME OUTCOMES (PO):

At the end of the graduate program at Calicut University, a student would:

PO 1	Demonstrate a profound understanding of knowledge trends and their impact on the chosen discipline of study.
PO 2	Demonstrate professional skills to navigate diverse career paths with confidence and adaptability.
PO 3	Demonstrate mastery of varied digital and technological tools to understand and interact with the digital world, thus effectively processing complex information.
PO 4	Become a successful professional who drives positive change through effective communication, collaborative acumen, transformative leadership, and a dedication to inclusivity.
PO 5	Emerge as an innovative problem-solver and impactful mediator, applying scientific understanding and critical thinking to address challenges and advance sustainable solutions.
PO 6	Become a responsible leader, characterized by an unwavering commitment to human values, ethical conduct, and a fervent dedication to the well-being of society and the environment
PO 7	Emerge as an innovative researcher and entrepreneurial leader, leveraging collaborative partnerships with industry, academia, and communities, thus contributing to local, regional, and global development

Programme	PHYSICAL EDUCATION				
Course Code	PEN2FM106(2)				
Course Title	EXERCISE AND WEIGHT MANAGEMENT				
Type of Course	MULTI DISCIPLINARY COURSE (2)				
Semester	II				
Academic Level	100-199				
Course Details	Credit	Lecture per week	Tutorial per week	Practical per week	Total Hours
	3	3	-	-	45
Pre-requisites					
Course Summary	Eating healthy food and staying active are sum of the most important things you can do to prevent health alignments and improve your personal well being. The course will help to understand the basics of body weight and a technique to measure body composition and their interpretations, basic concept of weight management in obesity and underweight, enable				

	students to learn types, level and impact of exercises for weight management and also develop skill of planning proper diet.
--	--

Course Outcomes (CO):

CO	CO Statement	Cognitive Level*	Knowledge Category#	Evaluation Tools used
CO1	To explore the science of body composition, including the various components of the human body, methods for assessment, and strategies for managing body composition for health and maintenance of ideal bodyweight.	U	C	Instructor-created exams / Quiz/Assignment
CO2	To understand the relationship between exercise and weight management, emphasizing the physiological and behavioural aspects of achieving and maintaining a healthy weight through physical activity.	U	F	Instructor, created exams/Quiz/Assignments/demonstration
CO3	To inculcate knowledge on principles of nutrition and their application to weight management, the impact of dietary choices on body weight, metabolism, and overall health, with a focus on evidence-based strategies for weight loss and maintenance.	AP	P	Instructor created exam / Assessment/Examination/Quiz
CO4	To explore the relationship between exercise and weight management, emphasizing the physiological and behavioural aspects of achieving and maintaining a healthy weight through physical activity. To learn about different exercise modalities and behaviour change strategies to promote effective weight management.	AP	P	Instructor-created exams / Practical Test/Home Assignments
CO5	Formulation of specific programmes for weight management. Hands on training on organizing training programmes for weight management.	AP	P	Tasks and Assignments
* - Remember (R), Understand (U), Apply (Ap), Analyse (An), Evaluate (E), Create (C) # - Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)				

Detailed Syllabus:

Module	Unit	Content	Hrs
I	Body composition and ideal body weight		10
	1	Concept of body weight and importance of ideal body weight	1
	2	Meaning , Components and factors effecting body composition	2
	3	Influence of body composition on health and performance	1
	4	Methods for assessing body composition	2

	5	Understanding fat lose and weight lose	2
	6	Body Types and its characteristics (Pyknic, Athletic and Aesthetic)	2
II	Basic concepts of weight management		10
	7	Obesity-Causes-risk factors	1
	8	Under Weight –Causes and Risk Factors	1
	9	Impact of Gender difference and aging on body weight -female athletic triad	1
	10	Misconception of weight management- Influence of mobile applications– influence of social media. Fake Institutions and trainers	2
	11	Myths about weight loss(Weight loss need not be fat loss &weight gain need not be muscle gain	1
	12	Guidelines to lose weight and weight gain- Strategies for weight maintenance- Building a personal action plan for long-term success- - Goal setting and motivation strategies	2
	13	Behavioural Aspects of Weight Management- Stress management and its impact on weight-Lifestyle and Long-Term Success- Sustainable lifestyle changes	2
III	Diet and Weight Management		8
	14	Need and Importance of nutrition in weight management- Basics of energy balance and metabolism- Principles of healthy eating- Balanced diet	2
	16	Diet - Components of Diet- -micro nutrients and macro nutrients- Caloric intake and macronutrient distribution- Meal planning and portion control	3
	18	Basal Metabolic Rate- Daily energy requirements calorie intake and expenditure-	1
	19	Eating disorders-binge eating, anorexia nervosa, bulimia.Junk Food - Food Supplements and weight management.	2
IV	Exercise and Weight Management		8
	23	Introduction to Physical activity- Definition, Aim and Objectives, of exercise - principles of exercise	2
	24	Types of exercise and Its benefits - Exercise and safe heart zone	2
	25	Importance of Cardio vascular and strength workouts in weight management -	2
	26	Yoga -its role in weight management	1
	27	High-intensity interval training (HIIT) its role in weight management	1
V	Open ended module		9
	38	Group Project: Designing and application of a 4-week exercise and nutrition plan

II Semester CUFYUGP Degree Examination

Exercise and Weight Management

Course Code:

Credits:3

Maximum Time: 1.5 Hours

Maximum Marks: 50

Section A

Attempt all questions each questions carries two marks

1. Health
2. Athletic Body
2. Metabolism
4. Balanced diet
5. Junk Food.
6. Aerobic Exercise
7. Strength
8. Underweight
9. Macro Nutrient
10. B.M.I

Section B

Answer Any four Questions. Each question carries 6 marks

- 11 Describe the factors affecting Body Composition?
12. Explain importance of nutrition in Weight management?
12. Explain types of muscular activities?
14. Explain the ways and means to reduce stress?
15. Explain the role of Yoga in weight management?

Section C

Answer Any Two Questions. Each question carries 10 marks

- 16 Explain Nutrition?
- 17 Describe the importance physical activity in weight management.

Programme	Physical Education				
Course Code	PEN2FM106(3)				
Course Title	RECREATIONAL ACTIVITIES FOR ELDERLY				
Type of Course	MULTI DISCIPLINARY COURSE				
Semester	II				
Academic Level	100-199				
Course Details	Credit	Lecture per week	Tutorial per week	Practical per week	Total Hours
	3	3	-		45
Pre-requisites	Basic awareness about physical activity and exercise				
Course Summary	This course aims to empower the students with concepts of aging, need for recreational activity and to design programs for geriatric recreation according to the special needs.				

Course Outcomes (CO):

CO	CO Statement	Cognitive Level*	Knowledge Category#	Evaluation Tools used
CO1	Acquire knowledge on concept, theories and phases of ageing process.	U	C	Instructor-created exams / Quiz
CO2	Understanding the principles, characteristics and modern trends of recreation for elderly	U	C	Instructor-created exams / Quiz
CO3	Familiarize the concepts and major domains of elderly recreational programme	An	C	Instructor-created exams / Quiz
CO4	Develop competency in designing recreation programme for elderly.	Ap	P	Instructor-created exams / Home Assignments
CO5	Analyze and impart specific programmes for various need groups.	Ap	M	Tasks and assignments
* - Remember (R), Understand (U), Apply (Ap), Analyse (An), Evaluate (E), Create (C) # - Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)				

Detailed Syllabus:

Module	Unit	Content	Hrs
I	Introduction To Active Aging		10
	1	Process of Aging, Theories of Aging - Biological-Psychological-Sociological Theories	3
	2	Importance of staying active in the elderly years.	2
	3	Factors affecting aging: Hereditary - Environment- Abiotic - Biotic - Socioeconomic	3
	4	Aging : Types & Phases	2
II	Concept of Recreation		10
	5	Recreation- Principles, Importance, Characteristics	3
	6	Classification of recreational Activities : Active - Passive ,Closed - Open, Psycho - social, Indoor-outdoor Activities	3
	7	Tailoring need specific Recreational programmes for the elderly	2
	8	Modern trends in recreation.	2
III	Geriatric Recreational Activities		8
	9	Elderly Recreation Programme - General Guidelines and Planning	2

	10	Benefits of Geriatric Recreation - Physical - Psychological- Social - Emotional	2
	11	Major Domains of Geriatric Recreation : Physical Activities- Mental Stimulation Activities- Social Activities - Creative Pursuits Psycho - Social.	2
	12	Therapeutic Recreation : Benefits-Types	2
IV	Recreation Management		8
	13	Organization and Implementation Strategies: Organization - supervision, promotion and evaluation of recreation programs	2
	14	Designing Recreational Facilities	2
	15	Camp operation program: Organization - objectives- Types of Camping	2
	16	Safety Practices in Geriatric Recreation	2
V	Open Ended Module - Designing Specific Recreational Programmes for Elderly		9
	17	Assignment: Design specific programmes for various categories Maintain a personal health and daily activity record Group Assignment: Organize one day recreational programme in the neighbourhood old age home	9

II Semester CUFYUGP Degree Examination
RECREATIONAL ACTIVITIES FOR THE ELDERLY

Course Code:

Credits:3)

Maximum Time: 1.5 Hours

Maximum Marks: 50

Section A

Answer Any Eight Questions. Each question carries marks.

1. Define the process of Aging.
2. Explain the Biotic factors affecting Aging.
3. Define the concept of Recreation.
4. Explain Psycho-Social form of Recreational Activities.
5. Describe the concept of Geriatric Recreation?
6. List down the types of Therapeutic Recreation.
7. What are the different types of camping?
8. Write a short note on the Safety Practices in Geriatric Recreation.
9. Recreational Facility Design
10. Physiological Benefits of Geriatric Recreation

(8 x 2 = 16 Marks)

Section B

Answer Any Four Questions. Each question carries 6 marks.

11. Explain the Factors Affecting Aging.
12. Elaborate on Modern Trends in Recreation.
13. Explain about the major domains of Geriatric Recreation.
14. Describe the organization and implementation of Recreational Programs
15. Describe the Various Phases of Aging.

(4 x 6 = 24 Marks)

Section C

Answer Any Two Questions. Each question carries 10 marks.

16. Explain various theories of Aging.
17. Give a detailed description about the general guidelines in planning elderly recreation programme.

(1 x 10 = 10 Marks)

Model Question Paper

Fitness Management and Personal Training (FMPT03)

Time.1.5 hrs

Maximum Marks: 50

Section A

Answer any 8 questions. Each question Carries 2 Marks (16 marks)

1. Identify the term Physical Fitness?
2. Enumerate the Characteristics of skeletal muscle
3. Classify the types of Strength
4. Describe Aerobic Capacity?
5. Prepare the Concept of 1 RM?
6. Components of HRPF
7. Define training Load?
8. Discuss the term Kinesiology?
9. Illustrate the concept of personal Training?
10. Define Exercise Physiology?

Section B

Answer any 4 questions. Each question Carries 6 Marks (24 marks)

11. Explain the components of Physical Fitness?
12. Any two Methods of evaluating client physical fitness
13. Explain how to occur overload?
14. Analyse the importance of Weight training for developing Physical Fitness?
15. Judge the importance of cooling down exercise?

Section C

Answer any one questions. Each question Carries 10 Marks (10 marks)

16. Differentiate the various Methods for developing Physical Fitness?
17. Summarize any 5 types of fitness equipment and its effects on our body

**CALICUT UNIVERSITY – FOUR-YEAR UNDER

Model Question Paper
Course Code:
SEC-2 First Aid and Basic Life Skill Support

Time : 1.5 Hrs

Mark: 50

Answer all questions.
Each question carries 2 marks
Ceiling 16 Marks

1. Define Green stick fractures.
2. Elaborate Isotonic contractions
3. Define T.E.N.S
4. Explain Front Bite
5. Define Subluxations
6. Define Skeletal muscles
7. Define Synovial joint
8. Elaborate Contusion
9. Explain Closed injuries
10. Define Incision

Section B

Answer all questions. Each question carries 6 marks.
Ceiling 24 Marks

11. Explain muscular injuries? First Aid and its management
12. Discuss fractures, types, and its management.
13. Analyze skin injuries.
14. Examine head injuries.
15. Critically evaluate dislocations and its management.

Section C

Answer any one question. Each question carries 10 marks

16. Explain the steps involved in performing CPR. Discuss the importance of CPR in saving lives during cardiac arrest and the proper techniques for administering CPR to adults, children, and infants.
17. Describe various rehabilitation techniques used to help individuals recover from injuries or medical conditions.

**CALICUT UNIVERSITY – FOUR-YEAR UNDER
GRADUATE PROGRAMME (CU-FYUGP)**

PHYSICAL EDUCATION (SEC)

PROGRAMME OUTCOMES (PO):

At the end of the graduate program at Calicut University, a student would:

PO 1	Demonstrate a profound understanding of knowledge trends and their impact on the chosen discipline of study.
PO 2	Demonstrate professional skills to navigate diverse career paths with confidence and adaptability.
PO 3	Demonstrate mastery of varied digital and technological tools to understand and interact with the digital world, thus effectively processing complex information.
PO 4	Become a successful professional who drives positive change through effective communication, collaborative acumen, transformative leadership, and a dedication to inclusivity.
PO 5	Emerge as an innovative problem-solver and impactful mediator, applying scientific understanding and critical thinking to address challenges and advance sustainable solutions.
PO 6	Become a responsible leader, characterized by an unwavering commitment to human values, ethical conduct, and a fervent dedication to the well-being of society and the environment
PO 7	Emerge as an innovative researcher and entrepreneurial leader, leveraging collaborative partnerships with industry, academia, and communities, thus contributing to local, regional, and global development

Programme	Physical Education				
Course Code	PEN5FS107(3)				
Course Title	PHYSICAL FITNESS AND EXERCISE PRESCRIPTION				
Type of Course	SKILL ENHANCEMENT COURSE (3)				
Semester	V				
Academic Level	300 – 399				
Course Details	Credit	Lecture per week	Tutorial per week	Practical per week	Total Hours
	3	3	-	-	45
Pre-requisites					
Course Summary					

Course Outcomes (CO):

CO	CO Statement	Cognitive Level*	Knowledge Category#	Evaluation Tools used
CO 1	Understand the physical fitness ,its components and types	U	F	Instructor-created exams / Quiz
CO 2	Analyze individuals fitness and assessment of the fitness level and techniques	AN	P	Practical Assignment / Observation of Practical Skills
CO 3	Demonstrate proficiency in various fitness assessment techniques	AP	P	Seminar Presentation / Group Tutorial Work
CO 4	To design safe and effective workout programs and to develop the ability to modify exercise prescriptions for individuals with specific health considerations.	U	P	Instructor-created exams / Home Assignments/Practical Assignment
CO 5	Recognize the importance of lifestyle factors, nutrition, and mental well-being in overall fitness.	U	C	Practical Assignment / Observation of Practical Skills
* - Remember (R), Understand (U), Apply (Ap), Analyse (An), Evaluate (E), Create (C) # - Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)				

Detailed Syllabus:

Module	Unit	Content	Hrs
I	Physical fitness and Assessment		10
	1	Definition & importance of physical fitness , type of physical fitness and components of physical fitness	5
		Benefits of regular physical activity	2
		Body composition assessment,Cardiovascular fitness testing, Muscular strength ,endurance and flexibility assessment	3
II	Principles of Exercise Prescription		9
	5	Frequency, intensity, time, and type (FITT) principles	2
	6	Progressive overload and specificity	2
	7	Individualization of exercise programs	2
	8	Exercise for special populations -Elderly, pregnant and differently abled individuals, person with chronic health conditions	3
9			
111	Designing Exercise Programs		11
	10	Developing aerobic and anaerobic workouts	2
	11	Resistance training program design	2

	12	Flexibility and core training	2
	13	Injury prevention and management	2
	14	Nutrition and Fitness-Basics of nutrition for physical activity	3
IV	Ethics and Professionalism		6
	17	Code of ethics for exercise professionals	2
	18	Legal considerations and responsibilities	2
	19	Continuing education and professional development	2
V	Open ended Module-Preparation of Exercise programme		9
	Task:- Cardiovascular exercise Strength training High Intensity interval Training (HIIT) Out door ativities –Hiking, rock climbing ,trail running sports and games participation- Soccer,basketball,Tennis Dance classes-Zumba,Hiphop Martial arts –Karate,Taekwondo,Kalari

V Semester CUFYUGP Degree Examinations

Course Code:

PHYSICAL FITNESS AND EXERCISE PRESCRIPTION

(Credits: 3)

Maximum Time: 1.5 hours

Maximum Marks: 50

Section A

[Answer any 8 questions . Each question carries 2 marks]

(Ceiling: 16 marks)

1. Define Physical Fitness
2. Describe Flexibility
3. Differentiate aerobic and anaerobic exercise?
4. Expand the acronym FITT
5. Enumerate the benefits of cardiovascular exercise?
6. Elaborate BMI
7. Explain muscular Endurance
8. Connect Calorie with food
9. Specify the term overload in exercise prescription ?
10. Explain resistance training ?
11. Enlist the benefits of warming up ?

Section B

[Answer any four questions All. Each question carries 6 marks]

(Ceiling: 24

marks)

12. Explain the components of physical fitness and how each component contribute to overall health and well-being ?
13. Discuss the principles of exercise prescription and how they can be applied to design effective workout programme ?
14. Describe the FITT principle and its importance in creating personalized exercise regimens
15. Evaluate the importance of proper warming up and cool-down routines in preventing sports injuries.
16. Discuss the role of nutrition in supporting physical fitness goals and exercise performance
17. Discuss the role of a certified fitness professional in guiding individuals towards achieving their fitness goal safely and effectively

Section C

[Answer any one. Each question carries 10 marks]

(1x10=10 marks)

18. Explain the principles of exercise prescription and their application in designing effective workout routines. How do intensity ,duration, frequency and specificity influence the outcomes of an exercise programme
19. Evaluate the role of technology in enhancing physical fitness and exercise prescription .How can wearable devices ,fitness app, and virtual coaching platforms be utilized to monitor progress, provide feedback and optimize training outcomes?
